WHAT WE WORK WITH

# LINING: LEATHER

## M A T E R I A L

### LINING: LEATHER

One thing we're super proud of is, how comfortable our products are to wear. One reason for that is, that we use soft lining in all of them.

We use lambskin, since it's the most wonderful leather for this purpose. It's soft to the touch, has a smooth surface that makes it easy to clean, and comes in a variety of beautiful colors.

On the next page you'll find the colors we always keep in stock. In addition to that, we can order a lot of different colors and shades for your custom pieces.

### SOME EXAMPLES OF DIFFERENTLY COLORED LINING

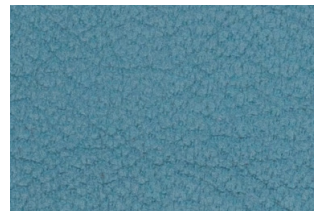

Don't you love how much of an effect the lining color has to the overall look of the products? It's such an easy way to customize your items and make them suit you and your style even better.

# LINING: VEGAN

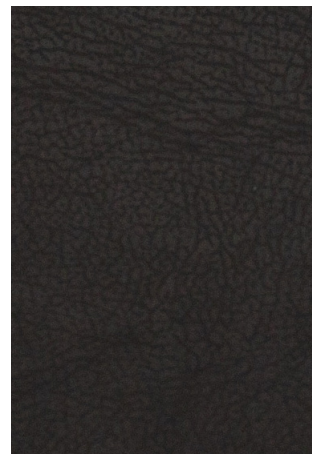

## M A T E R I A L

### LINING: VEGAN LEATHER ALTERNATIVE

One thing we're super proud of is, how comfortable our products are to wear. One reason for that is, that we use soft lining in all of them.

Just like the vegan outside material, the lining is sustainably produced by using the remnants of the apple industry.

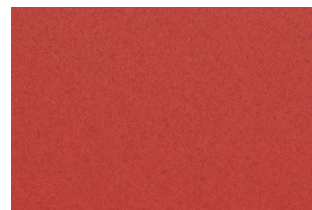

The vegan lining is a little thicker than our leather lining, but still feels very good on ones skin. In addition to that, it's perfectly suited for inside engravings.

### BEAUTIFUL IN BROWN

The vegan lining is perfect for the “mandala No. 1 floral” collar made from vegan brown base material.
